

SARCOIDOSIS AFFECTS 1 IN EVERY
2,000 PEOPLE WORLDWIDE

Introduction

Thank you very much for your interest in learning more about the Life & Breath Foundation!

The Life & Breath Foundation, a Maryland-based non-profit organization founded in 1998, supports the management of sarcoidosis utilizing the vital resources necessary to empower patients.

This Foundation Overview Package is designed to provide you a snapshot of our organization. Inside, you will find:

- Foundation Background & Mission
- Supporters & Current Board Members
- Description of Our Programs
- Schedule of Our Fundraising Events
- Use of Proceeds in 2022

In addition, please feel free to explore our website www.lifeandbreath.org or Facebook page www.facebook.com/lifeandbreath for even more in depth information about us.

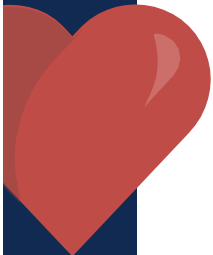

I invite you to participate as a 2022 Corporate Sponsor for the Life & Breath Foundation.

I personally want to thank you for your consideration of this opportunity and hope you will join us in support of the Life & Breath Foundation.

Respectfully,

Sean R. Hull
FOUNDER & PRESIDENT – LIFE & BREATH FOUNDATION

SARCOIDOSIS SNAPSHOT

- Sarcoidosis is a leading cause of chronic fibrotic lung disorders in the United States
- Affecting 1 in 2,000 Americans, Sarcoidosis is a disease for which the origin and cure are unknown
- Once considered a rare disease, Sarcoidosis is debilitating and often fatal
- A multi-symptom disease, Sarcoidosis generally attacks the lung and results in tissue inflammation throughout the body
- Historically, Sarcoidosis research efforts have been challenged by a lack of national education awareness of the disease

Life & Breath Foundation

Ellicott City MD, 21042

THE FIGHT AGAINST SARCOIDOSIS IS PERSONAL TO ME...

In 1996, I lost my mother, who struggled for more than 13 years with this disease. She was a strong and courageous woman who never let the pain of Sarcoidosis affect her spirit or touch her soul. The way she lived her life was a great lesson to me – it taught me that we must accept the things we cannot change and fight hard to change the things we can. From this lesson grew the Life & Breath Foundation.

Since 1998, The Life & Breath Foundation has been striving to find a cure for sarcoidosis. The seriousness of this disease cannot be underestimated - nor my resolve in working toward a cure. So little is known about this disease and so many people suffer from it every day. With each dollar raised, I am given the opportunity to raise the spirit of each person struggling with this painful disease – including members of the Planning Committee.

I created the Foundation to provide sarcoidosis patients and their loved ones the support they need to live well and find comfort in knowing they are not alone while combatting the disease. Life and Breath has three primary goals:

- to offer the sarcoidosis community the necessary tools to keep track of their journey from doctor visits, medications and side effects to research and medical advances,
- to provide a nurturing environment for those affected by sarcoidosis to share their experiences, and
- to build more awareness within the medical community to help combat this chronic disease.

Since its inception, the Life & Breath Foundation has raised over \$500,000 for sarcoidosis patient support.

WHAT PATIENTS ARE SAYING

"Life and Breath - they are like the light at the end of the tunnel for me."

"Just wanted to take a moment to thank you for your effort in organizing the speaker series. You really are a lifeline in this often scary Sarcoidosis journey."

"As newly diagnosed, it was nice to hear what others have been going through... that I'm not alone. The resources provided are a big help!"

"Keep up the GREAT work you are doing!!! Thank you!!!"

"I am beyond thankful for coming across this video. (from the Life & Breath Foundation YouTube Channel) I think it is beyond helpful for a person struggling with pulmonary Sarcoidosis. Thank you Thank you Thank you"

"Thank you very much for the information, I haven't found anything good about Sarcoidosis, until I decided to check again if something new appear, and this and the other video I heart is really helping me to understand the sickness and manage it better! "

"this is so useful...I love this page!!" (From our IG account)

"I love your features on foods and supplements it's very informative"

"this Sarcoidosis page is awesome so many tips and most importantly hope"

"So proud of the work that Life and Breath is doing to support Sarcoidosis patients"

Programs Overview

SARCOIDOSIS SPEAKER SERIES

One of the ways we help patients is through our Sarcoidosis Speaker Series. Experts provide patients and caregivers with live webinars, which allow attendees to ask questions and get expert advice. Here are some of our recent speakers and topics.

Dr. Monisha Bhabote
Well-Being Doctor
Jacksonville, FL

Dr. Raj Dasgupta
Kerk Medicine at USC
Los Angeles, CA

Dr. Richard Harris
Great Health and Wellness
Houston, TX

BreathFit
Houston, TX

Dr. Megan Berkenstock
Johns Hopkins
Baltimore, MD

Dr. Mark Lamos
Greater Baltimore Medical
Center
Baltimore, MD

Dr. Adam Kaplin
Johns Hopkins
Baltimore, MD

Dr. Adam Morgenthau
Mt. Sinai Hospital
New York, NY

Patient Support

It has always been in our mission to support patients living with sarcoidosis and to help them improve their quality of life. We keep hearing time and time again of the need for a system to support patients in rural communities all around the world who do not have ready access to sarcoidosis experts. In 2022 we would like to create a solution using technology built by both sarcoidosis physicians and patients that will ultimately empower the individuals with resources and education to advocate for themselves. Each patient will have access the most updated information to manage their disease.

Physician Education

Sarcoidosis is still considered an orphan or rare disease, but with new diagnostic information and technology, is now known to be a common chronic illness that appears all over the world. The lack of education and information regarding sarcoidosis still hampers additional funding and research. We are working to provide resources that will help physicians stay up to date with the newest research and practices by reaching out to physicians' offices and connecting them with the Life & Breath Website and Speaker Series.

Life & Breath Scholar

Established in 2021, the Life & Breath Scholar Award is presented to Pulmonary Residents from Greater Baltimore Medical Center who are interested in specializing in sarcoidosis research. Life & Breath sponsors the residents in sarcoidosis research and the Scholars support the efforts of the Life & Breath Foundation. Our goal is for these physicians to become leaders in sarcoidosis research and ambassadors for Sarcoidosis patients.

Events Overview

Our Annual Fundraising Events

Flip Flop Festivus

The Life & Breath Foundation presents its annual signature fundraiser, *Flip Flop Festivus*, every September at the Four Seasons Hotel Baltimore

A repeatedly sold out event with over 200 guests, *Flip Flop Festivus* offers an elegant night on the town in a resort casual atmosphere. Past attendees have included former professional athletes and media personalities such as Qadry Ismail, Brad Jackson, Gheorghe Muresan, Harvey Grant, Wally Williams, Ed Norris, Walt Williams, Keith Booth, Pete Gilbert, and Keith Mills.

Taking place in the hotel's Cobalt Ballroom, the event features sumptuous cuisine and cocktails – including a bourbon tasting, casino games, raffle prizes and an exciting live auction of highly sought-after sports and travel packages. Guests enjoy dancing to the sounds of DJ Lyndon “Smoky” Lansdowne from The Starboard in Dewey Beach.

Take a Breath for Sarcoidosis 5K

The Life & Breath Foundation commemorates *National Sarcoidosis Month* with a signature event designed to raise awareness of the disease and promote healthy lifestyles among Sarcoidosis patients and non-patients alike.

Take a Breath for Sarcoidosis is a virtual 5K, allowing for participation across the globe.

It features a 1 Mile Walk, 5K Trail Run, and Kids Fun Run.

Drive for the Cure Golf Tournament

Drive for the Cure is our founding event and was hosted from 1998-2011. After a 10-year break, we brought back this fun event in 2021. Drive for the Cure focuses on raising funds, celebrating the outdoors, and saying thank you to our sponsors.

Drive for the Cure is hosted in early June near Baltimore County, Maryland.

It features a foursome golf competition of 18 holes, a golf clinic for those wanting to improve their skills, and dinner with a Silent Auction.

Use of Proceeds 2022

Life & Breath Foundation 2022 Goals

Our Fundraising goal for 2022 is \$125,000. The Life & Breath Foundation would like to use your generous donations to complete the following goals.

- **Company Management**

Life & Breath has been able to keep company management cost very low by relying on our amazing network of volunteers. With our increasing programming, we have a need to add more staff to the foundation to be able to properly support our patients. We would love to be able to hire a medically trained patient advocate and an executive director.

- **Speaker Series**

The Speaker Series is one of our most popular programs. While the experts give of their time and knowledge voluntarily, we would like to budget enough to be able to support patients in implementing the suggestions a speaker might give. For example, sending grocery gift cards to 25 attendees of a diet related discussion. This kind of support gives hope and encouragement to patients struggling with sarcoidosis.

- **Patient Centered Tracker Solution**

Time and time again, we hear in our patient contact of the struggle in tracking all the symptoms, details, and treatments in this complicated disease. And, because of the individualistic nature of each case, creating a solution is a complicated process. Our main goal for 2022 is to create a tracking solution that can benefit every patient with sarcoidosis. We have some of the world's best experts working with us and are beyond excited to begin the first phase of this dream project.

- **Physician Education Outreach**

We are continually surprised by the lack of knowledgeable care for sarcoidosis patients. With enough funds, we would like to institute a program that allows us to reach out to doctor's offices across the US and provide both doctors and patients with more accessible information to this orphan disease.

- **Life & Breath Scholar Program**

2022 will be our second year supporting local pulmonary physician residents in their research on sarcoidosis. We will hopefully be sharing 2 national presentations from our current Scholars toward the end of the year! We would love to be able to expand this program to more medical centers in the fall.
